

**Remarks**

Following Examiner's suggestion, claims 1 and 24 are amended to delete reference to a "high molecular weight" sulfonic acid and to insert recitation of "from about 1 to about 5 weight percent alkylbenzene" sulfonic acid in place thereof. Claim 6 is canceled in view of the amendment to claim 1 and claim 7 is amended to depend from claim 1 instead of from claim 6. All other claims remain unchanged.

These amendments are believed to overcome the rejections under 35 U.S.C. 112, first and second paragraphs, and the specification and all claims as now presented are believed to be in condition for allowance. No fee is believed to be due in connection with the filing of this paper but the Commissioner is hereby authorized to charge any required fee or credit any overpayment to the Locke Liddell & Sapp LLP deposit account no. 12-1781.

Respectfully submitted,
